

# Take your commitment to renewable energy

one  step  further

The average River Falls home uses 8,529 kilowatt-hours of energy per year. This is equivalent to burning 2.5 tons of coal.

## Will you take it one step further? Will you go all the way?

**Without renewable energy blocks commitment:**

Burn **2.5 tons** of coal annually

**Take the first step**  
(Purchase first or add an additional block)

Prevent the burning of 1 ton of coal annually

**\$2** 

**Go all the way!**  
(Purchase enough blocks to go **100% Carbon free!**)

**Purchasing 1 block prevents 1 ton of coal from being burned.**

Simply purchasing a \$2\* block of renewable energy is the **easiest and cheapest** way for you to pollute less and do your part in combating climate change.

\*This \$2 purchase is reflected monthly.

**River Falls is the most renewable-friendly city in Wisconsin!**

For more information about this Block Program, please contact Mike Noreen: 715-426-3467 or visit [rfmu.org/GreenBlock](http://rfmu.org/GreenBlock).

**Fill in & return to City Hall, 222 Lewis St. River Falls, WI 54022**

Please purchase a green block or go 100% renewable to make a positive impact on our environment:

\_\_\_\_\_  
Utility account number

\_\_\_\_\_  
Street address

\_\_\_\_\_  
Name

\_\_\_\_\_  
Phone/email

\_\_\_\_\_  
Date

**Check one:**

Yes, I want to purchase **one** green block

Yes, I want to purchase **two** green blocks

Yes, I want my energy to be **100% renewable**
